

**Certified Information
Systems Auditor®**

An ISACA® Certification

Certified Information Systems Auditor® (CISA®) Examination Preparation Course

Course Overview

This course prepares the candidate for the performance of evaluations of organizational policies, procedures, and processes to ensure that an organization's information systems align with overall business goals and objectives. The candidate will evaluate the security and controls of business structure and governance methods; the policies, procedures, and guidelines used; and the overall security of the business environment. The CISA exam is offered three times a year (June, September, and December), consisting of 200 multiple-choice questions that cover the five CISA domains

Course Duration

12 hours, divided into 3-hour, daily sessions for 4 days

CPE

14*
*CPE is based on live attendance

Delivery Format

Virtual Classroom | Group Training

What You'll Learn
