COBIT® 5 Assessor Course

Course Overview

The COBIT 5 Assessor course provides a basis for assessing an enterprise’s process capabilities against the COBIT 5 Process Assessment Model (PAM). Evidence-based to enable a reliable, consistent and repeatable way to assess IT process capabilities, this model helps IT leaders gain C-level and board member buy-in for change and improvement initiatives.

Assessment results provide a determination of process capability. They can be used for process improvement, delivering value to the business, measuring the achievement of current or projected business goals, benchmarking, consistent reporting and organizational compliance.
